

Scottish Pest Control Services

Maintaining Scotland's Environment

Scottish Pest Control Services are working alongside Quality Roofing & Building Ltd to supply a unique service for roofing and bird proofing throughout Scotland and beyond to ensure quality workmanship guaranteed at competitive prices.

A good proofing job is no good on a bad roof, or a good roof with a bad proofing system and this is why we know working together provides the best results.

All our technicians have passed the R.S.P.H. exam and are Wildlife Aware accredited. We are also members of Basis Prompt. This is a scheme to promote continuing personnel development (C.P.D.) in our staff, keeping us up to date with all new legislation.
